- Python
- Figma

EXPERIENCE

Statistics Module - TOMIWORLD Feb 2024 - Jun 2024

I worked on the development of a statistical analysis and reporting module, which aggregates various types of data obtained through the REST API. Additionally, I created a user-interactive highlights section to enhance user engagement.

Technologies: TypeScript, React, Css, Git, MUI, Chart.js

PROJECTS

Projeto Integrado - Softinsa 2022 - 2023

Developer of the web and mobile application as well as its UI/UX.

Assistance with database architecture and backend development.

Technologies: Express, Sequelize, PostgreSQL, JavaScript, React, Bootstrap, Kotlin, Figma

Programação Orientada a Objetos - Projeto Fábrica 2022

Developer of a C++ application for managing a factory with various types of users and motors, as well as various sensors to monitor the smooth running of the factory.
